SCALE OF VALUES	18

BASIC PRINCIPLES OF CALLING APPLICABLE TO ALL REQUIRED ELEMENTS

1. The Technical Panel shall identify what is performed despite what is listed on the Program Content Sheet.
2. The Levels shall be determined according to the Basic and Additional Principles of Calling and characteristics of levels fulfilled. They shall not result in giving No Level to a Required Element as long as the requirements for Basic Level are met.
3. To be given any Level, a Required Element must meet all the requirements for Basic Level.
4. If a Fall or interruption occurs at the attempt of any Required Element, refer to the Additional Principles of Calling for each Required Element
5. If a Fall or interruption occurs during a Required Element, the Required Element shall be identified and given a Level according to the requirements met before the Fall or interruption, or No Level, if the requirements for Basic Level are not met. This does not apply to Pattern Dance, Pattern Dance Element or Step Sequence (except One Foot Step Sequence).
6. If a Fall or interruption occurs at any part of the Required Element and the skater tries to continue the same element as a 2nd attempt to fill the time, this part is not identified as an Element. This does not apply to Pattern Dance, Pattern Dance Element, Step Sequence (except One Foot Step Sequence).
7. If a loss of control with additional support (touch down by free leg/foot and/or hand(s)) occurs after a Required Element has commenced and the Element continues without interruption its Level shall be reduced by 1 level per error – Refer to the Additional Principles of Calling for Element. Step Sequence (except One Foot Step Sequence) - Refer to the Additional Principles of Calling for these elements.
8. If a program concludes with the skater starting an element within the required duration of the program (including the additional 10 seconds allowed), the element and it's Level shall be identified until the Element stops completely. Elements started after the

required duration of the program (including the additional 10 seconds allowed) shall not be identified.

9. If a Spin (FD) or a Pose (RD and FD) is performed in a Step Sequence, such element will receive the abbreviation +ExEI. It indicates that the element receives No Value, the deduction -1 is applied and it will occupy a separate box, and NOT count as a Required Element (e.g. sAPo+ExEI, sSp+ExEI).
10. If a Dance Spin is performed in a Step Sequence in Rhythm Dance, the Dance Spin is not identified (Dance Spin is not a required element and there is no provision to identify it as an extra element).
11. The Technical Panel shall decide whether any feature to fulfil the Characteristics of levels is given credit, unless this feature is expressly designated as not eligible for Level in the present Communication or in the Q&A for Technical Panels (for example, in a Dance Spin, the Technical Panel can give credit for Level to a variation of Basic Position Camel which is not included in the list of examples but cannot give credit to a simple camel by the lady).
12. The definition of "intricate" when referring to technical elements does not necessarily mean difficult. It can also be defined as creative, interesting and unique.
13. If there is an illegal element(s)/movement(s) during the execution of any element (excluding Choreographic elements), the deduction for an illegal element(s)/movement(s) will apply and the element will receive Level 1 if the requirements for at least Level 1 are fulfilled. Otherwise the element will be called Basic Level if the element fulfils the requirements for Basic Level, or No level if the minimum requirement for Basic Level are not fulfilled.

PATTERN DANCE ELEMENTS FOR JUNIOR AND SENIOR

Additional definitions, specifications to definitions and notes

Key Point and Key Point Features: a Key Point is correctly executed when all its related Key Point Features are met and all its Edges/Steps are held for the required number of beats. Key Point Features are technical requirements valid for one season and are published in the corresponding ISU Communication.

A change of edge within the last ½ beat of the step is permitted to prepare the push/transition to the next step (unless otherwise prescribed).

Levels of difficulty

Characteristics of Levels for Pattern Dance Element

Basic Level	Level 1	Level 2	Level 3	Level 4
<u>50% of Pattern Dance Element is completed</u>	<u>75% of Pattern Dance Element is completed</u>	<u>1 Key Point is correctly executed</u>	<u>2 Key Points is correctly executed</u>	<u>3 Key Points is correctly executed</u>

Additional Principles of Calling

1. The process used by the Technical Panel to identify Key Points and their correct execution is the same process as for identification of Required Elements and Levels (i.e. by majority). Correct or incorrect execution of Key Points is reported on the Judges Details per Skater chart as:
 - "Yes": meaning all Key Point Features are met and all Edges/Steps are held for the required number of beats, or
 - "Timing": meaning all Key Points Features are met but one or several Edges/Steps are not held for the required number of beats, or
 - "No": meaning one or several Key Point Features are not met, whether or not Edges/Steps are held for the correct number of beats or the Key Point is not identified due to a fall or interruption.
2. Evaluating the percentage of steps for Pattern Dances is based on the total number of steps completed.
3. If a Fall or interruption occurs at the attempt to or during a Pattern Dance Element and the element is resumed, the element shall be identified and given a Level according to

the requirements met before and after the Fall or interruption, or No Level if the requirements for Basic Level are not met.

4. Level 4 shall be considered only when the Pattern Dance Element is not interrupted at all, either through Stumbels, Falls or any other reason.
5. If the Pattern Dance Element is interrupted 4 beats or less, the key points are called as identified and the level will be reduced by 1. It is reported on the Judges Details per Skater chart as: "<" to indicate an interruption of 4 beats or less. Example: Yes, Yes, Yes, Yes – Level 4 becomes Level 3.
6. If the Pattern Dance Element is interrupted more than 4 beats but 75% of the steps are completed, the key points are called as identified and the level will be reduced by 2. It is reported on the Judges Details per Skater chart as: "<<" to indicate an interruption of more than 4 beats. Example: Yes, Yes, Yes, Yes – Level 4 becomes Level 2.
7. If a skater completes less than 75% of the Pattern Dance Element, the Technical Specialist calls Key Points as performed (Yes, No, Timing), identifies with the Pattern Dance Element Name and "NO Level" adding "Attention". It is reported on the Judges Details per Skater charts as: "!" to indicate that less than 75% of the Pattern Dance Element has been completed.
8. For Pattern Dance Elements, an interruption may be but is not limited to Fall(s), missing step(s), touchdown(s), ect.

PATTERN DANCE AND PATTERN DANCE ELEMENTS FOR ALL OTHER CATEGORIES

Additional definitions, specifications to definitions and notes

Key Point and Key Point Features: a Key Point is correctly executed when all its related Key Point Features are met and all its Edges/Steps are held for the required number of beats. Key Point Features are technical requirements valid for one season and are published in the corresponding ISU Communication.

A change of edge within the last ½ beat of the step is permitted to prepare the push/transition to the next step (unless otherwise prescribed).

Levels of difficulty

Characteristics of Levels for Pattern Dances

Basic Level	Level 1	Level 2	Level 3	Level 4
50% of Pattern Dance Element is completed	75% of Pattern Dance Element is completed	1 Key Point is correctly executed	2 Key Points is correctly executed	3 Key Points is correctly executed

Additional Principles of Calling

1. The process used by the Technical Panel to identify Key Points and their correct execution is the same process as for identification of Required Elements and Levels (i.e. by majority). Correct or incorrect execution of Key Points is reported on the Judges Details per Skater chart as:
 - "Yes": meaning all Key Point Features are met and all Edges/Steps are held for the required number of beats, or
 - "Timing": meaning all Key Points Features are met but one or several Edges/Steps are not held for the required number of beats, or
 - "No": meaning one or several Key Point Features are not met, whether or not Edges/Steps are held for the correct number of beats or the Key Point is not identified due to a fall or interruption.
2. Evaluating the percentage of steps for Pattern Dances is based on the total number of steps completed.
3. If a Fall or interruption occurs at the entrance to or during a Pattern Dance and the dance is immediately resumed, the dance shall be identified and given a Level according to the requirements met before and after the Fall or interruption, or No Level if the requirements for Basic Level are not met.

4. If the Pattern Dance is interrupted less than 25% (through stumble, falls, ect), the key points are called as identified and the level will be reduced by 1, adding "downgraded <". It is reported on the Judges Details per Skater chart as: "<" to indicate an interruption of less than 25%.
5. If the Pattern Dance is interrupted more than 25% but 50% of the steps are completed, the key points are called as identified and the level will be reduced to "Basic Level" adding "downgraded <<". It is reported on the Judges Details per Skater chart as: "<<" to indicate an interruption between 25% to 50%.
6. If a skater completes less than 50% of the steps, the Technical Specialist calls Key Points as performed, identifies with the Pattern Dance Name and "NO Level" adding "Attention". It is reported on the Judges Details per Skater charts as: "!" to indicate that less than 50% of the Pattern Dance has been completed.
7. For Pattern Dance/Pattern Dance Elements, an interruption may be but is not limited to Fall(s), missing step(s), touchdown(s), ect.

SPINS

Additional Principles of Calling

1. The first performed Dance Spin shall be identified as the required Dance Spin, classified as a Spin or a Combination Spin and given a Level, or No Level if the requirements for Basic Level are not met. However, if a Choreographic Element is required with Choreographic Spinning Movement as an option, this element shall be identified as Choreographic Spinning Movement anywhere in the program where it is first performed. Any subsequent Dance Spin and/or Choreographic Spinning Movement performed after the Required Dance Spin and/or Choreographic Spinning Movement shall not be identified.
2. A change of direction or one foot turns on the spot before resuming the rotations shall not be considered as an "interruption".
3. If at the change of foot in the Combination Spin the spinning action has been started and the skater is still on two feet after half a rotation, the Level shall be reduced by one Level.
4. If during the Dance Spin a loss of control occurs resulting in additional support (touch down by free leg/foot and/or hand(s) for up to half a rotation the Level shall be reduced by 1 Level per occurrence. But if the mistake last for more than half a rotation, this shall be considered as an interruption and additional principles of calling shall apply.
5. In case a Spin is required and a Combination Spin is not permitted, the required Dance Spin performed as a Combination Spin shall be classified as an Extra Element with no value.
6. If a Fall or interruption occurs at the entrance to or during a Dance Spin and is immediately followed by a spinning action (for the purpose of filling time), the element shall be identified and given a level according to the requirements met before the Fall or interruption, or No Level if he requirements for Basic Level are not met, and the additional part shall not be identified (Note: an interruption in rotations to perform features such as a change of direction or one foot turns on the spot before resuming the rotations shall not be considered as such an interruption).

Additional Definitions, Specifications to Definitions and Notes

Upright Position:

Performed on one foot with skating leg straight or slightly bent and body upright (on a nearly vertical axis), arched back or bent to the side. (If the angle between the thigh and shin of the skating leg is 120 degrees or smaller, it will be considered as a Sit Position)

Sit Position:

Performed on one foot with skating leg bent in a one-legged crouch position and free leg forward, to the side or back. If the angle between the thigh and shin of the skating leg is more than 120 degrees, it will be considered as an Upright or Camel position depending on the other criteria that characterize these Positions.

Camel Position:

Performed on one foot with skating leg straight or slightly bent and body bent forward so that the waist line is horizontal and the core of the body is less than 45 degrees above the horizontal line (if it is more, the position will be considered as Upright) and the free leg extended or bent upward on a nearly horizontal line or higher. If the angle between the thigh and the shin of the skating leg is less than 120 degrees, it will be considered as a Sit Position.

Difficult Variation of Basic Positions (Examples):

Upright spin
a) Biellmann type- body upright with the heel of the boot pulled by the hand behind and above the level of the head b) Full layback with upper body arched back from the waist towards the ice or sideways with upper body bent to the side from the waist towards the ice c) Split with both legs straight and the boot/skate of the free leg held up higher than the head d) Upper body arched back or sideways with free foot almost touching the head in a full circle (doughnut/ring); Maximum one half of a blade length between head and blade
Sit spin
a) Free leg bent or straight directed forward with thigh of skating leg at least parallel to the ice b) Free leg bent or straight directed backward with thigh of skating leg at least parallel to the ice c) Free leg bent or straight directed to the side with not more than 90 degrees between thigh and shin of skating leg d) Free leg crossed extended behind, and directed to the side, with not more than 90 degrees between thigh and shin of skating leg e) Free leg crossed behind and touching or not touching the skating leg, with thigh of skating leg at least parallel to the ice f) Free leg directed forward, with not more than 90 degrees between thigh and shin of skating leg and the back of the upper body almost parallel to the ice
Note: Example e) performed right after any other Difficult Variation of Sit Position shall be considered as the same Difficult Variation of the Sit Position.
Camel spin
a) Upper body (shoulder and head) turned upwards – facing up so that the line of the shoulders is at least past the vertical point b) Body nearly horizontal or bent sideways horizontally with head and free foot almost touching (doughnut/ring) ; Maximum one half of a blade length between head and blade c) Body nearly horizontal with the heel of the boot pulled by the hand above the level of the head d) Body bent forward to the spinning leg and free leg extended backward and upward up to almost a full split (with the angle between the thighs about 180 degrees) e) Simple Camel by the man with the free leg on horizontal line or higher

Notes:

1. If example d) for Upright Position and b) for Camel Position is performed after each other it shall be considered as the same Difficult Variation.
2. If example a) for Upright Position and c) for Camel Position is performed after each other it shall be considered as the same Difficult Variation.
3. Rotations shall be considered for total number of rotations when performed fully, continuously on one foot.
4. Rotation in Difficult Variation shall be considered for Level when performed continuously in a fully established position.

Entry/Exit Feature

- a) Unexpected entry/exit without any evident preparation
- b) Continuous combination of intricate steps OR a continuous combination of intricate movements, OR a continuous combination of both intricate step(s) and intricate movement(s) immediately before or after the Dance Spin

Note: The definition of "intricate" when referring to technical elements does not necessarily mean difficult. It can also be creative, interesting, unique.

Spin Option 1: without change of spinning direction

Spin Option 2: with change of spinning direction

Combination Spin Option 1: without change of spinning direction

Combination Spin Option 2: with change of spinning direction for each part

Levels of Difficulty

A Difficult Variation shall be considered for Level when held for at least 3 rotations in a Spin or 3 rotations in a Combination Spin.

In a Combination Spin, Level 3 or 4 shall be considered only when each part of the Combination Spin includes at least one of the Different Difficult Variations given credit for Level.

Characteristics of Levels for Dance Spin

Basic Level	Level 1	Level 2	Level 3	Level 4
<p>Sp Spin: At least 3 rotations</p> <p>CoSp Spin: At least 3 rotations in either part and at least 1 rotation in the other part</p>	<p>1 Difficult Variation in any Basic Position</p> <p align="center">OR</p> <p>At least 3 rotations in one direction and at least 1 rotation in the other direction</p>	<p>2 different Difficult Variations from 2 different Basic Positions</p> <p align="center">OR</p> <p>1 Difficult Variation in any Basic Position</p> <p align="center">AND</p> <p>Different direction of spinning rotation and at least 3 rotations in each direction</p>	<p>3 different Difficult Variations from 3 different Basic Positions</p> <p align="center">OR</p> <p>2 different Difficult Variations from 2 different Basic Positions</p> <p align="center">AND</p> <p>Different direction of spinning rotation and at least 3 rotations in each direction</p>	<p>OPTION 1 3 different Difficult Variations from 3 different Basic Positions</p> <p align="center">AND</p> <p>Entry feature or Exit feature</p> <p align="center">OR</p> <p>2 different Difficult Variations from 2 different Basic Positions</p> <p align="center">AND</p> <p>Different direction of spinning rotation and at least 3 rotations in each direction</p> <p align="center">AND</p> <p>Entry feature or Exit feature</p>

POSE

Additional Principles of Calling

1. The first performed Pose(s) shall be identified as the required Pose(s) and given a Level, or No Level if the requirements for Basic Level are not met. Subsequent Poses shall be identified as Pose classified as Extra Element with no value.
2. Any Pose or part of a Combination Pose of a repeated Type shall be classified as an "Additional Element" will receive the abbreviation* (e.g. SPo*). It indicates that the element receives No Value, the deduction -1 is applied, it occupies a box and it will count as a Pose (does not apply to the second part of a Combination Pose composed of two Poses on two curves forming a serpentine pattern.
3. To be considered a different Type, Poses of a similar Category must be skated on different edges.
4. Any Pose of a Type not according to the Required Elements for Rhythm Dance or Free Dance Program shall be classified as an Extra Element with no value.
5. A brief movement less than 3 seconds, in which a pose position is attained but is not sustained shall not be considered as a Pose.
6. If a Fall or an interruption occurs at the entrance to or during a Pose and is immediately followed by another pose (for the purpose of filling time), the element shall be identified and given a Level according to the requirements met before the Fall or interruption, or No Level if the requirements for Basic Level are not met, and the additional part shall not be identified.

Applicable to Combination Poses:

1. A Combination Pose shall be identified with the first two fully established Types of Single Poses performed forming two approximately equal parts or it shall be identified as a Single Pose of the Type forming the larger part. The Level of each of the two Types of Pose shall be given separately.
2. If for any reason one of the parts of a Combination Pose cannot be identified, only the other part shall be identified, as a Single Pose, and given a Level according to the requirements met, or No Level if the requirements for Basic Level are not met, and classified as "+Combo". The subsequent elements shall be identified as if both parts of the Combination Pose had been performed and identified.
3. If one of the Single Poses forming the Combination Pose includes an illegal Movement/Pose, the deduction for Illegal Element/Movement will apply once and the Part of the Combination Pose including the Illegal Movement/Pose will receive Level 1 if the requirements for Basic Level are met (example of all: "sPo1 Illegal Element+sPo4 Combo).
4. If both Single Poses forming the Combination Pose include an Illegal Movement/Pose (same or different), the deduction for Illegal Element/Movement will apply twice and both parts of the Combination Pose will receive Level 1 if the requirements for Level 1 are met (example of call: "sPo1 Illegal Element+sPo1 Illegal Element Combo").
5. In a Combination Pose, if a skater performs an Illegal Element/Movement as an Entry Feature (such as a Jump of more than one revolution): the deduction for Illegal Element/Movement will apply and the first part of the Combination Pose will receive Level 1 if the requirements for Basic Level are met. The second part of the Posse will receive a Level according to the requirements met.
6. In a Combination Pose, if a skater performs an Illegal Element/Movement as an Exit Feature (such as a Jump of more than one revolution): the deduction for Illegal Element/Movement will apply and the second part of the Combination Pose will receive Level 1 if the requirements for Basic Level are met. The first part of the Pose will receive a Level according to the requirements met.
7. Any Difficult entry feature(s) connected with the 1st Pose and considered for Level for the chosen Type of Pose will also upgrade the 2nd Pose in a combination pose.
8. Any Difficult exit feature(s) connected with the 2nd Pose and considered for Level for the chosen Type of Pose will also upgrade the 1st Pose in a combination pose.

Additional Definitions, Specifications to Definitions and Notes

- ATTITUDE (Apo) – A position or stance on one leg during which the skater moves either forwards or backwards on a curve with the supporting leg either slightly bent or straight and the free leg held higher than the level of the hip and in front, behind or to the side, bent or extended, free or held
- CROUCHING POSE (CPo) – A movement on two feet during which the skater moves on the ice with both legs bent more than 90°
- INA BAUER (IPo) – A movement on two feet during which the skater moves on the ice with one foot on a forward edge and the other on the same backward edge, on different but parallel curves
- LUNGE/DRAG (LPo) – A movement in which a skater moves on the ice with skating knee bent more than 90° with the other leg extended behind and touching the ice
- SPREAD EAGLE (SPo) – A movement on two feet on and edge during which a skater moves on the ice with one foot on a forward edge and the other on the same backward edge, on the same curve
- TEA POT/SHOOT THE DUCK/HYDRO BLADE (TPo) – A movement on one foot where the skater moves on the ice with the skating knee bent to 90° and the thigh parallel to the ice, with the other leg extending forwards either parallel to the ice or pulled towards the core with the head and body bent to meet the knee

Difficult Types of Poses

- a) An Attitude with a full split when the legs of the skater are extended in one line with the angle between thighs about 180°
- b) A "Bielmann": body in any orientation (e.g. upright, horizontal ect.) in relation to the vertical line of the body with the heel of the boot pulled by the hand behind and above the level of the head
- c) An Attitude comprising a full doughnut/ring: upper body arched back, with one foot almost touching the head in a full circle (maximum of half a blade length between head and blade)
- d) Hydro Blade. The core of the body must be clearly positioned away from the vertical axis
- e) A Sprial/Simple Camel Position with the free leg in a horizontal position or higher for the man only
- f) Spread Eagle

Note:

- A chosen example of Difficult Pose skated on the same edge shall be considered for Level only the first time it occurs
- Examples b) full Bielmann and c) full doughnut/ring shall be considered as the same

Pose: A movement in which the skater adopts/attains a sustained position for a minimum of 3 seconds. A Pose should enhance the music chosen and express its character and should be performed in an elegant manner without obvious feats of strength and awkward and/or undignified actions and positions.

Single Pose: The duration of a Single Pose should not exceed 7 seconds. Where 2 Single Poses are specified there must be more than 3 steps between them.

Combination Pose: The duration of the Combination Pose should not exceed 12 seconds. A Combination Pose combining:

- a) Two different Types of Single Poses
- b) With not more than 1 connection step between the two poses.

Difficult turns as connection step: A difficult turn as connection step between 2 Single Poses to form a Combination Pose is defined as either a Rocker, a Counter or a Bracket. No extra steps, pushes or touch downs are allowed.

Change of edge between 2 Poses: The change of edge connecting 2 Poses should be a clean change of edge from one definite edge to a different definite edge with the second edge being clearly established within 2 seconds. When two Poses are Attitudes the free leg must be held higher than the hip.

Entry feature
<ul style="list-style-type: none"> a) Unexpected entry without any evident preparation b) <u>Difficult/transitional entry (Example; from a twizzle or jump)</u> c) <u>Continuous combination of intricate steps OR a continuous combination of different movements, OR a continuous combination of both intricate step(s) and intricate movement(s) performed immediately before the Pose</u>
Exit feature
<ul style="list-style-type: none"> a) <u>Continuous combination of intricate steps OR a continuous combination of different movements, OR a continuous combination of both intricate step(s) and intricate movement(s) performed immediately before the Pose</u> b) <u>Difficult/transitional exit</u>
Arm feature
<p><u>Significant and continuous movement of the arm(s). Where one arm is being used to support the free leg in position the free arm should be used in a significant and continuous motion.</u> <u>Note: Simple use of the hands and/or forearms only is not sufficient to be given credit for the feature.</u></p>

Levels of Difficulty for a Single Pose

The time is measured from the pose begins and until it is fully executed, if the time is longer than 7 seconds there will be given a deduction of 1 point (this is shown in Judges Scores as ">" (Extended Lift)).

A Pose is called but given No Level if the duration is less than the required duration by definition (3 seconds).

Characteristics of Levels for Pose

Basic Level	Level 1	Level 2	Level 3	Level 4
<p><u>A Pose position is established for at least 3 seconds</u></p>	<p><u>A simple Pose position is established and held for at least 3 seconds on a definite clean edge</u></p>	<p><u>The Pose position is difficult and established for at least 3 seconds on a definite clean edge</u></p>	<p><u>2 Features out of a)-e):</u></p> <ul style="list-style-type: none"> a) <u>Ina Bauer on definite opposing edges established for at least 3 seconds and performed in a straight line or on a curve</u> <p style="text-align: center;"><u>OR</u></p> <ul style="list-style-type: none"> b) <u>A difficult Pose position which is established for at least 3 seconds on a definite clean edge</u> <p style="text-align: center;"><u>AND</u></p> <p><u>1 additional feature from</u></p> <ul style="list-style-type: none"> c) <u>Entry feature</u> d) <u>Exit feature</u> e) <u>Arm feature</u> <p><u>a) or b) features must be included</u></p>	<p><u>3 Features out of a)-e):</u></p> <ul style="list-style-type: none"> a) <u>Ina Bauer on definite opposing edges established for at least 3 seconds and performed in a straight line or on a curve</u> <p style="text-align: center;"><u>OR</u></p> <ul style="list-style-type: none"> b) <u>A difficult Pose position which is established for at least 3 seconds on a definite clean edge</u> <p style="text-align: center;"><u>AND</u></p> <p><u>2 additional features from</u></p> <ul style="list-style-type: none"> c) <u>Entry feature</u> d) <u>Exit feature</u> e) <u>Arm feature</u> <p><u>a) or b) features must be included</u></p>

Adjustments to Level

1. If there is more than one connecting step between the 2 poses in a Combination Pose the Level is reduced by 1 Level.
2. For a change of edge between poses in a combination pose, if the change of edge is not established within 2 seconds the Level shall be reduced by 1 Level.

TWIZZLES

Additional Principles of Calling

1. The first performed Set of Twizzles shall be identified as the required Set of Twizzles (Set of Sequential Twizzles in Rhythm Dance and Set of Synchronized Twizzles in Free Dance) and given a Level, or No Level if the requirements for Basic Level are not met. The first Set of Twizzling Movements performed after the required Set of Synchronized Twizzles shall be identified as Choreographic Twizzling Movement. Subsequent Sets of Twizzles shall not be identified.
2. If a loss of control with additional support (touch down by free leg/foot and/or hand(s)) occurs after a Twizzle has commenced and the Twizzle continues without interruption, its Level shall be reduced by 1 Level per error.
3. If a Fall or interruption occurs at the entry edge to the first Twizzle, the element is given No Level.
4. If any part of the first two Twizzles becomes a Pirouette or checked Three Turns, its Level shall be reduced
 - by 1 Level if one of the two Twizzles become Pirouettes or checked Three Turns
 - by 2 Levels if both Twizzles become Pirouettes or checked Three Turns.
5. If there is a full stop before the first or the second Twizzle, the Level of the Set of Twizzles shall be reduced by 1 Level per stop.
6. If there is more than the maximum or less than the minimum permitted number of steps between required Set of Twizzles, the Level shall be reduced by 1 Level. Each push and/or transfer of weight while on two feet between Twizzles is considered as a step.

Additional Definitions, Specifications to Definitions and Notes

A Set of Twizzle is a travelling turn on one foot with one or more than one rotation which is quickly rotated with a continuous (uninterrupted) action.

The 4 different types of entry edges on Twizzles are:

- Forward Inside
- Forward Outside
- Backward Inside
- Backward Outside

Group A (upper body and hands)

- Elbow(s) at least level with or higher than the level of the shoulders. Elbow(s) could be above the head, at the same level as the head or lower than the head. Hand(s) not clasped
- Significant continuous motion of arm(s)
- Hands clasped behind back and extended away from the body
- Straight arms clasped in front and extended away from the body
- Core of body is shifted away from the vertical axis

Group B (skating leg and free leg)

- Coupé in front or behind with free foot in contact with the skating leg in an open hip position
- Holding the blade or boot of the free foot
- Free foot crossed behind the skating foot and close to the ice
- Free leg held out (i.e. extended or bent with an angle of 90 degrees or more between thigh and shin, to the front, to the side or to the back or combination of those) at 45 degrees or more from vertical
- Sit position (at least 90 degrees between the thigh and the shin of the skating leg)
- Changing the level of the skating leg (knee) with a continuous wave (up/down) motion

Group C (pattern, entry, exit)

- Performing a third Twizzle of at least 3 rotations, performed correctly, started with different entry edge than the first two Twizzles, and preceded by a maximum of one step for Set of Sequential Twizzles and for Set of Synchronized Twizzles
- Entry to the first or the second Twizzle from a Dance Jump (the entry edge for the Twizzle will be determined by the landing edge of the Dance Jump)
- Set of Twizzles performed on one foot without change of foot, with no limit on turns or movements performed on one foot between Twizzles (option possible in Rhythm Dance between all Twizzles and in the Free Dance only between 2nd and 3rd Twizzles)
- Set of Twizzles performed directly from difficult/creative, intricate or unexpected entry

Note:

A chosen Additional Feature from Group A and B shall be considered for a Level if it is fully achieved and established within the first half rotation of the Twizzle and held until the number of rotations needed for that Level is fully completed (2 rotations for Level 2, 3 rotations for Level 3, 4 rotations for Level 4)

There is no limit on turns or movements performed on one foot on the change of foot or the steps between Twizzles.

The definition of "intricate" when referring to technical elements does not necessarily mean difficult

Levels of Difficulty

Calling a Set of Twizzles Basic Level is that the skater executes at least one full rotation for both Twizzles either one on each foot or two on the same foot. The Technical Panel determines the level of Twizzles according to the criteria.

Set of Sequential Twizzles: At least two Twizzles with up to 1 step between Twizzles.

Set of Synchronized Twizzles: At least two Twizzles with minimum 2 steps and up to 4 steps between 1st and 2nd Twizzles.

STEP SEQUENCES

Additional Principles of Calling

1. The first performed Step Sequence of a required Type shall be identified as the required Step Sequence and given a Level, or No Level if the requirements for Leve Basic are not met. Subsequent Step Sequences of that Type and Sequence of a Type not according to the Required elements for Rhythm Dance or Free Dance shall not be identified.
2. If a Fall or an interruption occurs at the attempt to or during a Step Sequence (excluding One Foot Step Sequence) and the element is immediately resumed, the element shall be identified and given a Level according to the requirements met before and after the Fall or interruption, or No Level if the requirements for Basic Level are not met.
3. The percentage of steps for a Step Sequence is evaluated on the overall pattern completed per the prescribed shape, i.e. straight line, circle-shape ect. (This does not apply to the One Foot Step Sequence).
4. One Foot Step Sequence consists of Difficult Turns performed on one foot and must be started with the first Difficult turn.
5. If a loss of control with additional support (touch down by free leg/foot and/or hand(s)) occurs during the One Foot Step Sequence and continues without interruption, its Level shall be reduced by one Level per error.
6. If a Fall or interruption occurs at the entry edge to the first difficult turn to the One Foot Step Sequence, the element is given No Level.
7. If a Fall or interruption occurs during a One Foot Step Sequence and is immediately resumed, the element shall be identified and given a Level according to the requirements met before the fall or interruption, or No Level if the requirements for Basic Level are not met.

Additional Definitions, Specifications to Definitions and Notes

Steps and turns must be distributed evenly throughout the sequence and must be skated with distinct edges, and to the rhythm(s) of the music.

Group A: Straight Line Step Sequences
<ul style="list-style-type: none">• Midline (MiSt): Skated along the full length of the ice surface on the Long Axis or <u>Short Axis</u>.• Diagonal (DiSt): Skated as fully corner to corner as possible.
Group B: Curved Step Sequences
<ul style="list-style-type: none">• Circular (CiSt): May be skated in anticlockwise or clockwise direction - utilizing the full width of the ice surface on the short axis.• Serpentine (SeSt): Commences in either direction (clockwise or anticlockwise) at the long axis at one end of the rink and progresses in three bold curves or in two bold curves (S-shaped) and ends at the long axis of the opposite end of the rink; pattern utilizing the full width of the ice surface.
Group C: Partial Step Sequence
<ul style="list-style-type: none">• Pattern Dance Type (PSt): Perform on the ice surface anywhere or as described by Ice Dance Technical Committee.• One Foot (OFSt): Performed on one foot.

Turns
<ul style="list-style-type: none"> • One Foot Turn – a rotational movement on one foot in which the skater moves from forward to backward or backward to forward. • Two Foot Turn – a rotational movement from one foot to the other foot in which the skater moves forward to backward or backward to forward. • Turns: Three Turn, Bracket, Rocker, Counter, Mohawk, Choctaw, Twizzles
Difficult Turns
<ul style="list-style-type: none"> • Bracket • Rocker • Counter • Choctaw • Outside Mohawk • Twizzles (single Twizzles for Level 1 and 2, double Twizzle for Level 1-4), skated on distinct and recognizable edges and in accordance with the description of Twizzle in Rule 704
Steps
<ul style="list-style-type: none"> • Steps – the visible tracing on the ice that is executed on one foot. It may consist of an edge, change of edge, a turn • Examples of steps are edges, changes of edge, stroke, cross stroke, crossed step in front, crossed step behind, chassé, progressive, swing roll, cross roll, slip step and toe step
One Foot Step Sequence Turns
<ul style="list-style-type: none"> • Bracket • Rocker • Counter • Twizzles (single Twizzles for Level 1 and 2, double Twizzle for Level 3 and 4), skated on distinct and recognizable edges and in accordance with the description of Twizzle in Rule 704

Note: An error in any part of a turn will result in the turn not being counted for the Level. This also applies to an error in any part of a Twizzle or "Double Twizzle", the entire Twizzle is not counted towards the Level. As an example – If the skater includes a "Double Twizzle" as a Difficult Turn and there is a mistake in the execution within any part of the Turn, it is not counted even as a "Single Twizzle".

Levels of Difficulty

To obtain a Basic Level in the solo step sequence, at least 50% of the step sequence must be completed by the skater and must include steps & turns.

Characteristics of Levels Style B

Basic Level	Level 1	Level 2	Level 3	Level 4
The Step Sequence is not interrupted more than 50% of the pattern in total, either through Stumbles, Falls or any other reason	The Step Sequence is not interrupted more than 50% of the pattern in total, either through Stumbles, Falls or any other reason AND Footwork includes at least 1 Type of Difficult Turn (Only the first attempt of the Difficult Turn is considered for Level)	A Step Sequence is not interrupted more than 25% of the pattern in total, either through Stumbles, Falls or any other reason AND Footwork includes at least 3 Types of Difficult Turns (Only the first attempt of the Difficult Turn is considered for Level)	A Step Sequence is not interrupted more than 10% of the pattern in total, either through Stumbles, Falls or any other reason AND Footwork includes at least 4 Types of Difficult Turns (Only the first attempt of the Difficult Turn is considered for Level) (if Twizzle is included it must be done with at least two rotations – Double Twizzle) AND Turns must be multi-directional	A Step Sequence is not interrupted at all, either through Stumbles, Falls or any other reason AND Footwork includes at least 5 Types of Difficult Turns (Only the first attempt of the Difficult Turn is considered for Level) (if Twizzle is included it must be done with at least two rotations – Double Twizzle) AND Turns must be multi-directional AND All Steps/Turns are 100% clean

Characteristics of One Foot Step Sequence

Basic Level	Level 1	Level 2	Level 3	Level 4
At least 2 different Types of One Foot Step Sequence Turns are attempted	1 Type of One Foot Step Turns Only the first attempt of the Difficult Turn is considered for Level.	2 different Types of One Foot Step Turns Only the first attempt of the Difficult Turn is considered for Level.	3 different Types of One Foot Step Turns (Twizzles must be done with at least 2 rotations – “Double Twizzle) Only the first attempt of the Difficult Turn is considered for Level.	ALL 4 different Types of One Foot Step Turns (Twizzles must be done with at least 2 rotations – “Double Twizzle) AND All Turns are 100% clean Only the first attempt of the Difficult Turn is considered for Level.

CHOREOGRAPHIC ELEMENTS

Additional Principles of Calling

1. If a Choreographic Element is required:
 - a) Choreographic Spinning Movement/ Sliding Movement / Character Step Sequence can be performed anywhere in the program.
 - b) Choreographic Twizzling Movements are to be performed after the required Set of Twizzles.
 - c) Subsequent Choreographic Spinning Movements, Choreographic Twizzling Movements and Choreographic Character Step Sequence shall not be identified.
 - d) Subsequent Sliding movements, which are identified as Illegal Element/Movement and/or a Fall shall be called as Illegal Element/Movement and/or a Fall but not considered as an Additional Element (not considered as a Choreographic Sliding Movement).
2. Choreographic Spinning Movement shall be identified at the attempt to the element and confirmed when two or more rotations are performed.
3. A Choreographic Set of Twizzling Movements shall be identified at the attempt to the element and confirmed if in the both parts the skater performs at least 2 continuous travelling rotations and performed after the required Set of Twizzles.
4. Choreographic Sliding Movement shall be identified at the attempt to the element and confirmed when the skater executes controlled sliding movement(s).
5. Choreographic Character Step Sequence shall be identified at the attempt to the element and confirmed when the skater performs steps around the short axis from barrier to barrier.
6. Any choreographic Element/Movement combined with another Required Element as an "Entry" or "Exit" feature will not be considered by the Technical Panel as a required Choreographic Element/Movement. It will only be considered by the Technical Panel as an "entry" and/or "exit" feature.
7. Only the first performed required number of different Choreographic Elements shall be identified as the required Choreographic Elements.
8. For Senior FD, if a Choreographic Character Step Sequence is not performed within the first three Choreographic Elements, the third performed Choreographic Element is identified but shall not be confirmed (No Value). The Choreographic Character Step Sequence performed as a subsequent Choreographic Element shall not be identified.
9. If there is an illegal element(s) during the execution of any Choreographic Element, the deduction for an Illegal element(s)/movements(s) will apply and the element will receive No Value.

Choreographic Spinning Movement

Performed anywhere in the program, during which the skater performs at least 2 continuous rotations.

A continuous spinning movement on two feet or alternate feet or one foot and one knee/boot (not on two knees), on a common axis which may be moving.

Choreographic Twizzling Movement

Performed after the required Set of Twizzles, composed of 2 parts. Both parts on one foot or two feet or a combination. The first part must travel (cannot be on the spot) and the second part can be on the spot or travelling or a combination of both.

Choreographic Sliding Movement

Performed anywhere in the program, during which the skater performs a controlled sliding movement on any part of the body.

May also rotate.

Controlled sliding on 2 knees or any part of the body will not be considered as a Fall/Illegal Element by the Technical Panel during the element.

Sliding Movement cannot finish as a stop on 2 knees or sitting/lying on the ice, otherwise it will be identified as a Fall/Illegal Element and a deduction for Fall/Illegal Element is applied.

Choreographic Character Step Sequence

Performed anywhere in the program. Must be placed around the short axis (up to 10 m on either side of the short axis) and must proceed from barrier to barrier.

Touching the ice with hand(s) is allowed.

Note:

The Base Value is the same for all Choreographic Elements.
